"I was so skeptical, didn't think for one minute Equilib™ would actually work.

I'm a nurse, I'm not into the holistic thing. My son started taking the product and after three months he no longer rages and goes to school without any qualms; he even got three A's on his report card. Best of all he now has friends. His self esteem is back! He is living his life now, not just existing like he was before. We have our son back! The people are like angels in our lives; giving us the most precious gift ever."
